SUMMARY

Organized and adaptable undergraduate with hands-on experience owning projects end-to-end, leading small teams, and translating research into clear, actionable recommendations. Comfortable working across functions, structuring findings, and following through on execution in fast-moving, early-stage environments. Brings strong communication, critical thinking, and a genuine curiosity for learning new tools and workflows.

EDUCATION

Vellore Institute of Technology

B.Tech in Computer Science and Engineering — CGPA: 8.46

Sept 2022 – Present

EXPERIENCE

NoobSync Innovations

Tech & Growth Intern

July 2026 – Present

Remote

- Researched and curated 20+ engaging social media posts, driving a LinkedIn follower increase of 1,842.86% (7 to 136) and generating 2,000+ organic content views on Instagram within the first week of posting
- Built an automation system connecting WhatsApp messaging to a CRM platform for an edtech client, enabling instant customer responses and automatic lead routing to the admissions team, removing manual follow-up delays
- Independently researched and implemented new tools and workflows from scratch to deliver a production-ready business solution within a defined project timeline

Twvios Technologies Pvt. Ltd.

Intern

Jul 2025 – Sep 2025

Remote

- Led a team of 3 engineers on UI/UX design work, coding 10+ frontend pages myself while coordinating priorities and reviewing progress to deliver accurately and on time
- Collaborated closely with design and product teams, standardizing shared workflows that cut average sprint delivery time by 30% on subsequent releases
- Performed thorough testing and review on every design before release, catching issues early and maintaining consistent quality across the product
- Prepared and presented investor-facing decks summarizing product progress and milestones in clear, accessible language

Edunet Foundation X EY GDS

Intern

Dec 2024 – Jan 2025

Remote

- Selected for a competitive internship co-organized with EY GDS, taking sole ownership of a project delivered end-to-end within a 6-week timeline
- Planned and built a news platform organizing content into 5+ categories, making it easy for readers to find articles relevant to their interests
- Managed the project from planning through testing, checking every feature to ensure a smooth and reliable experience for users

PROJECTS

Scribiq

Dec 2025

- Built a smart note-taking app that offers real-time writing suggestions, helping users cut their note drafting time by 40%
- Added safeguards to prevent overuse of the app's AI features and designed a clean, consistent interface for a smooth user experience
- Owned the project independently from concept to launch, managing scope, priorities, and quality to deliver a polished final product

CodeWise

Dec 2024

- Created a tool that automatically reviews code submissions to flag bugs and suggest improvements, cutting manual review time by 35% in internal testing
- Designed clear guidance for the tool to follow, helping it correctly identify quality issues 99% of the time across 100+ test samples
- Took full ownership of the project from planning through testing, ensuring a reliable and user-friendly final experience
